

The Bona Traffic Range

Setting the standards for waterborne finishes, its unrivalled wear, scratch and chemical resistance makes Bona Traffic the premium choice of finish for many customers around the globe. The Bona Traffic range is available in silk, matt and antislip for a perfect finish.

The Bona Traffic HD

- Excellent wear, scuff, scratch and chemical resistance
- Early performance development
- Less than 5% VOC
- Faster curing
- Non-yellowing surface
- Significantly less odour
- DIBt approved

Bona Traffic HD

Ultimate Wooden Floor Protection

Ultimate High Traffic Performance

Bona raises the standards again – now introducing 2-component Bona Traffic HD. Since 1998, Bona Traffic has outperformed any other finish for outstanding durability on heavy-traffic floors, where top performance is demanded.

Taking performance even further, the next generation of finish is here with Bona Traffic HD. Significantly greater scratch, scuff and chemical resistance is quickly achieved only 24 hours after application.

Bona Traffic HD is the finish of the future, combining ultimate durability with 40 % lower VOC for fantastic long lasting results.

Ultimate Durability

Extremely scratch, wear and chemical resistant, the unique 2-component finish combines ultimate durability with beauty for fantastic long lasting results. Its non-yellowing surface stands the test of time, keeping the floor surface at its beautiful best.

Faster Curing

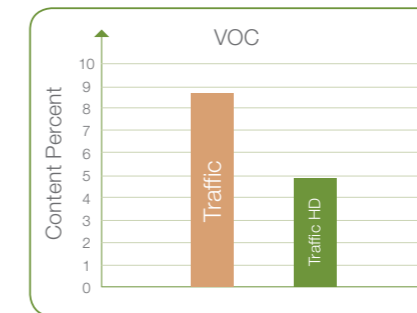

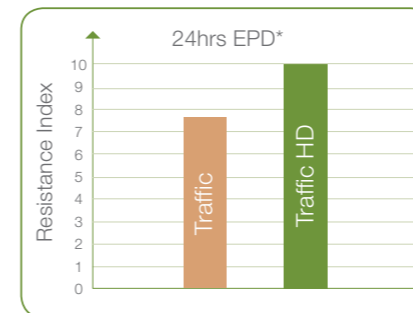

Bona Traffic HD's quick curing time and early durability ensure faster floor protection so life can begin again only 24 hours after application. Saving valuable time, commercial floor owners can now look forward to faster and improved results.

Extremely Low VOC

With less than 5% VOC and very low odour, the new Bona Traffic HD is the top performer for a better working and indoor environment. Bona Traffic HD is DIBt approved, certifying our contribution to the improvement of indoor air quality.

One step further in high performance

*Early Performance Development

Bona Traffic HD outperforms all previous expectations, ensuring the highest performance when low VOC and speed is in demand. For more information, please read the technical data sheet available at www.bona.com.

Bona for every type of floor

With Bona you have a solution for every need. For wooden floors in public areas such as airports, hotels and shopping malls, Bona Traffic or Bona Traffic HD is the ultimate choice.

For premium solutions to everyday wear, choose either Bona Wave or its companion, the world leading Bona Mega.

For areas with lower intensity foot traffic, such as domestic floors, Bona sets the standards in beauty and sustainability with Bona Novia and Bona Resident Plus.
