Prep Recoat Adhesion System

Recoat sport floors in 3 easy steps: 1. clean and tack, 2. optimize adhesion with Bona Prep™ using a buffer or an autoscrubber, and 3. finish.

- Cleans and conditions existing finish to optimize adhesion of new coat of finish
- Fast - just spray and buff
- Easy - doesn't require special training
- Convenient - pre-mixed and ready to use
- Prep system removes scuff and surface scratches, rather than just covering them

Machines & Abrasives

Quality sanding equipment and techniques are the foundation for every perfect finish. Bona provides a full line of reliable machines and durable abrasives.

- Precision-engineered dependable 10" sanding machines
- Innovative Bona DCS®—Dust Containment System
- Durable Bona Abrasives

CourtLines[®] Sport Floor Paint

Like any team, sport floor finishing is only as strong as its weakest link. Until now, paint for game lines has been the missing link in sport floor finishing systems.

CourtLines[®], formulated solely for sport floors, changes all that. It's a high-solids, fast-drying, solvent-based paint, manufactured specifically for use with both Bona[®] waterborne and oil-modified sport floor sealers and finishes.

Available in fifteen vibrant primary base colors, all CourtLines[®] paints are uniquely designed to create and match any custom color by blending base colors. Blending, rather than tinting, maintains brightness and application characteristics.

- A high-solids, fast-drying, solvent-based paint
- Low-viscosity formula with excellent flow and leveling
- Recoatable after only 24 hours dry time
