Bona[®]

Bona Traffic UV System

Thanks to its unique combination of good looks and high wear resistance, Bona Traffic has long been a favourite of architects, specifiers and floor users worldwide. Now, this highly successful, well-known treatment product is also available for industrial applications.

Bona Traffic UV, is the ideal finish for the most demanding environments such as restaurants, hotel foyers, airports and office reception areas. Available in three different gloss levels from matt to high gloss, Bona Traffic UV has the same smooth appearance and gives your floors the same degree of wear resistance as the internationally recognized Traffic from Bona's professional product range.

Once installed, floors treated with Bona Traffic UV are easy to look after. This product is covered by Bona Lifetime Support, so we support you all the way from installation through daily care and over-coating to complete restoration of your floor, providing all the relevant products and services worldwide.

Why not take advantage of Bona Traffic's* worldwide reputation to increase customer confidence and sales?

*Please note, all co-branding is according to Bona's graphic guidelines and limited to products which uphold specified standards of wear resistance, adhesion to the wood, gloss level and smoothness.

KEY BENEFITS

- Bona Traffic UV can be marketed as Bona Traffic* possibly the best known finish for wooden floors in the world
- The architects, specifiers and designers' first choice for demanding environments
- Transparent finish, promoting the natural beauty of the wood
- Extremely high wear and scratch resistance
- Traffic is available in three gloss levels: Matt 16, Silk matt 40 and Gloss 60
- Can be combined with any of Bona's industrial stains, including the Bona Create programme

TECHNICAL DATA

Your Bona Traffic UV system will be designed specifically for your production line to offer very high abrasion resistance, excellent adhesion, scratch resistance and to achieve the same smooth look and feel as Traffic from Bona's professional product range.
