

Bona UV Sportive

Top performing pre-finished sports floors

Bona UV Sportive

Sports floor performance from top to bottom

Since sports floors place particularly heavy demands on finishes and paints, Bona has designed Bona IC Sportive - a fully integrated system for pre-finish treatment of wooden sports floors. As part of the Bona range it is the perfect choice when considering a new sports floor.

Bona Sportive System

Bona IC Sportive can be combined with Bona Sportive System - a complete program of products and services for the installation, maintenance and renovation of wooden sports floors.

Secure abrading with Bona Diamond Abrasives

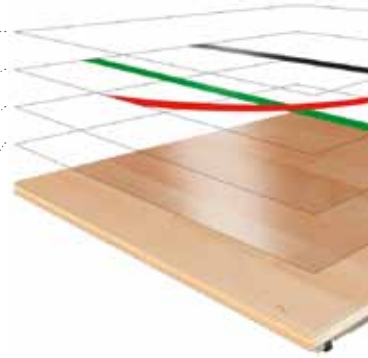

As an extension of Bona IC Sportive, Bona Diamond Abrasives provide smooth and safe results for excellent line marking application as well as overcoating.

Bona Sportive Finish (Sportive System)

Bona Sportive Paint (Sportive System)

Bona UV Sportive Finish (IC Sportive)

Bona UV Sportive Primer (IC Sportive)

Lifetime Support - around the globe

All products in the Bona Sportive System, pre-finished with Bona UV coating or originally treated with Bona products, are compatible with the Bona Lifetime Support program. Designed with the contractor's needs in mind, the program gives you complete peace of mind as long as you're working with Bona products from start to finish.

Through a full range of floor care, maintenance products and services the floor is supported through its entire lifetime. No matter where you are in the world, our worldwide organisation is ready to support you.

Bona UV Sportive

- Designed with the floor's total life cycle in mind
- Unique diamond abrasives for use before line marking or overcoating
- Excellent UV finish adhesion to various wooden surfaces
- Highest level of wear and scratch resistance
- Integrated with Bona Sportive System - installation and renovation
