

Create your Desired Effect

Bona Craft Oil Frost

Create a feeling of balance and give your floor a clean, neutral look with Bona Craft Oil Frost. Follow these steps to create your desired effect:

1. Apply Bona Craft Oil Frost using Bona Wool Pad.
2. After 15–30 minutes, make another pass with more oil until the surface is saturated i.e. until the wood does not absorb any more oil.

The number of treatments needed depends on the type of wood but 1–2 treatments are usually enough.

3. If needed, remove excess oil with cotton cloth immediately and allow surface to dry, minimum 24 hours without foot traffic.

Bona Craft Oil Frost

You will need:

- Bona Craft Oil Frost
- Bona Wool Pad
- Cotton cloth

Bona Craft Oil

With superior wood saturation properties, Bona Craft Oil delivers deep protection against wear, chemicals and moisture. A natural vegetable oil, it has virtually no odour and significantly lowered VOC. This means that it is safe to work with and live on.
