

Bona Clean R60

Technical data sheet

Bona Clean R60 is a mild, water soluble maintenance product for the routine cleaning and care of resilient floors. It has dual action properties, cleaning and leaving a thin, protective film in one step. Bona Clean R60 can give a subtle increase in gloss and is compatible with Bona Pure coating systems and other resilient floors.

- Cleaning and Maintenance in ONE
- Leaves a resoluble protective film
- Low foaming

Technical data

Type product:	Surfactant solution
pH-value:	approx. 9.5 (concentrate)
Dilution:	50 ml to 10-liter (1:200) or 1 liter to 10-liter (1:10) cold water
Coverage:	Routine cleaning 1 ltr = 1000 m ² Initial care: 1 ltr. = 50 m ²
Application tools:	Bona Microfiber Applicator Pad or Bona Cleaning Pad
Shelf life:	2 years from the date of production, in unopened original container
Storage/Transport:	The temperature must not fall below +5°C or exceed +25°C during storage and transport.
Disposal:	Wastes and emptied containers should be handled in accordance with local regulations
Packaging:	10 x1 litre, 3x5 litres

Processing

Routine Cleaning

1. Remove loose dirt from the floor by cleaning in a dry condition (vacuuming, sweeping).
2. Dilute Bona Clean R60, 50 ml to 10 litres cold water for a routine cleaning, wipe the floor with the solution and let the surface sufficient dry. For heavy contamination, dilute 250 ml to 10 ltr. water. The surface will become cleaned and protected in one step.

Initial Maintenance

1. Bona Clean R60 is also suitable for the initial maintenance of resilient floors after site end cleaning.
2. Remove loose dirt from the floor by cleaning in a dry condition (vacuuming, sweeping).
3. Dilute Bona Clean R60 1 liter to 10 litres cold water, wipe the floor with the solution and let the surface sufficient dry.
4. Afterwards polish the floor with a suitable polishing pad (typically white) and a single disc machine. Bona Clean R60 can also be used in autoscrubbers with a dilution of 25 ml to 10 liter (1:400) cold water.
