Storage/Transport:	The temperature must not fall below +5°C or exceed +25°C during storage and transport.
Disposal:	Wastes and emptied containers should be handled in accordance with local regulations
Packaging:	10 x1 litre, 3x5 litres

### Processing

Remove loose dust/grit using a vacuum cleaner, scissor mop or other dry cleaning method.

**Manual:** Dilute the product in a bucket filled with water. Apply the solution and if needed, allow it to work for a minute. Remove the dirty solution. For best results use in combination with microfiber.

**Machine:** Dilute the product as needed in the autoscrubbers water tank. Use the autoscrubber according to the machine manual. A white or red scouring pad is generally advised.

**Note:** The amount of water applied to the floor must be kept to a minimum. Pay attention to large gaps in the floor, do not allow excessive amounts of cleaning solution to seep into open gaps.

Please observe separate instructions for care and cleaning recommendations.
