

Bona Net Alox

Technical data sheet

Bona Net Alox are designed for medium and fine sanding with minimal risk of clogging. The special net structure enables dust free sanding maintaining the highest abrasive performance.

The Bona Net Alox is mainly intended to be used for orbital or rotary sanders, such as Supraflex SE 14-2 or similar. It can also be used attached to Bona Power Drive for fine and medium sanding.

- Minimal clogging
- Good dust extraction
- High removal rate
- Independent on machine hole system

Technical data

Grit type:	White Aluminium oxide
Grit range:	80,100 and 120
Size:	150 mm
Backing:	Knitted fabric
Coating:	Electrostatic
