Storage/transport:	The temperature must not fall below +5°C or exceed +25°C during storage and transport.
Disposal:	Wastes and emptied containers should be handled in accordance with local regulations.
Sizes:	1 litre

Preparations

Remove loose dirt and grit from your floor. Clean floor thoroughly with Bona Tile & Laminate Cleaner and let dry. Do not use over any floor that has been waxed or oiled. Wax and oil residues will prevent proper adhesion of Bona Tile & Laminate Polish to floor. **If uncertain, perform a small test before use.**

Shake bottle thoroughly before use and apply at normal room temperature, 18-25°C.

Application

1. Pour a wide, wavy line of Tile & Laminate Polish on a small section of the floor.
2. Spread the product over the section using a Bona Applicator Pad.
3. Complete section by smoothing with the applicator pad in the direction of the wood.
4. Continue section by section until the whole floor has been treated.

The floor can be walked on already after 2 hours but avoid heavy traffic and replacement of furniture and rugs the first 12 hours.

Maintenance

Bona Tile & Laminate Polish

Technical data sheet

Clean floor with Bona Tile & Laminate Cleaner and a Bona Cleaning Pad. When the floor is starting to show signs of wear and needs freshening up, clean and apply a new layer of Bona Tile & Laminate Polish. For removal of polish build up use Bona Polish Remover.
