

Bona Waterborne Sealers

Bona **ClassicSeal**®

Bona ClassicSeal® is an exceptionally clear waterborne sealer that highlights the natural color of the wood, minimizes grain raise and tannin bleed. Provides a build layer and prevents the finish from penetrating into the wood surface.

Key Benefits

- Minimizes tannin bleed, especially on white oak
- Exceptionally clear, highlighting true color of wood
- VOC Compliant
- Seals the wood, preventing the finish from penetrating

Bona **IntenseSeal**®

Bona IntenseSeal® - Unique, “wet look” that pops stain colors and works with the extractive oils and resins in each species to highlight their colors on natural floors. Bona IntenseSeal® is a specifically formulated waterborne sanding sealer that develops a vibrant look and deep, natural tone to individual wood species.

Key Benefits

- Excellent abrasability – develops rapid hardness and allows for easy abrasion
- Reduces tendency for side bonding. Minimizes tannin bleed
- VOC Compliant
- Seals the wood, preventing the finish from penetrating

Bona NaturalSeal®

Bona NaturalSeal® - Creates a very close look and depth of pure, freshly sanded wood. Contains a small amount of white pigment. Bona NaturalSeal® is a waterborne sanding sealer designed to retain the appearance of unfinished wood on your floor.

Key Benefits

- Enhances the look and depth of pure wood
- Reduces side bonding and tannin bleed
- Excellent abrasion performance
- Dries in 2-3 hours
- Seals the wood, preventing the finish from penetrating

Bona AmberSeal®

Bona AmberSeal® - Warm, rich, oil-modified undertone, but won't get yellower or darker with age. Contains an amber pigment. Bona AmberSeal® is a non-yellowing, poly-tone waterborne sanding sealer that provides an oil-based look to hardwood floors. Can be used with all Bona waterborne finishes over both stained and unstained floors.

Key Benefits

- Specially formulated to provide an oil-based look
- Reduces tendency for side bonding
- Virtually odorless and nonflammable
- VOC Compliant
- Seals the wood, preventing the finish from penetrating

Bona NordicSeal®

Bona NordicSeal® - Scandinavian, white-washed look without adding stain or caustic bleach. Contains twice the amount of white pigment as found in Bona NaturalSeal. Bona NordicSeal® is a waterborne sanding sealer that is formulated to provide a green alternative to a whitewashed floor without the use of caustic materials such as bleach. A unique way of customizing your floor from a light whitewash to successive coats, providing a truly Scandinavian look.

Key Benefits

- Provides a whitewashed look to any wood
- Water clean-up
- Product can be applied with a T-bar or roller
- Seals the wood, preventing the finish from penetrating
