RETHINK, RENEW, UPGRADE

Bona Commercial System® - Rethink Your Floor Replacement

An innovative and highly effective solution that transforms and extends the life of resilient and concrete floors. This high-quality, sustainable program allows you to either renew a floor's freshness, or totally transform its look, without replacement. Even in heavy-traffic areas, surfaces are sealed for extra durability and long-term protection.

TIME & COST SAVINGS

SUSTAINABLE

UNSURPASSED DURABILITY

DESIGN POSSIBILITIES

IMPROVED HYGIENE

We work hard to create products and systems that work together to provide exceptional results for beautiful floors around the world.

Bona Products are Green Seal® and GREENGUARD Certified

In 2017, Bona Commercial System® Hardwood Floor Cleaner Concentrate received Green Seal® certification. This product meets Green Seal Standard GS-37 based on effective performance, concentrated volume, minimized/recycled packaging, and protective limits on VOCs and human and environmental toxicity. Green Seal provides science-based environmental certification standards that are credible, transparent and essential to helping manufacturers, purchasers and consumers make responsible choices that positively impact business behavior and improve quality of life (GreenSeal.org).

Bona's cleaners have always been VOC-compliant and healthy for people and the environment. Our professional grade formula provides a residue-free solution to thoroughly clean hardwood and hard-surface floors. Bona's cleaners are GREENGUARD GOLD certified for indoor air quality (Greenguard.org).

Bona's industry leading waterborne finishes have always been VOC-compliant and healthy for people and the environment. Along with unsurpassed durability and beauty, our finishes are GREENGUARD certified for indoor air quality (Greenguard.org).

ABRASION

Using the Bona® Abrasion System gives your damaged and worn-down floors a new lease on life with our recoating and transformation processes. Thanks to our streamlined approach, the perfect surface can be achieved in a matter of hours with little downtime and is cost-effective, without the hassle of installing a new floor.

Our abrasion system is compatible with resilient and concrete floors. This involves abrading with Bona® Diamond Abrasives, Bona FlexiSand DCS® Buffer and Bona® Multidisc, followed by our professional grade primers, base colors and finishes for a durable and beautiful floor.

Machines

Bona FlexiSand DCS® Buffer

Bona FlexiSand Drive Plate

The Bona FlexiSand DCS® Buffer's technologically advanced design is engineered for performance, convenience, durability, unequalled power, superb balance and superior dust pick-up. The new low-deck design combined with the adjustable LED light makes working in hard-to-reach places easier than ever before. Push button activated hydraulic handle is easy to use and is adjustable to meet the needs of any user.

Key Benefits:

- Innovative vacuum chamber for superior dust pick-up
- Low-deck height for access to toe kicks and other hard-to-reach places
- Floating dust skirt adjusts automatically
- Large wheels for easy maneuverability when transporting
- Hydraulically adjustable handle height at the push of a button

Machines

Bona® Multidisc

Innovative drive plate in 16" size (six 5" discs) or 20" size (five 6" discs) creates the perfect surface for a Bona Finish System. The discs spin independently of each other, all but eliminating swirls and scratch marks, leaving the floor smooth and flat. Compatible with most buffers.

Key Benefits:

- Incredibly smooth sanding results
- Ideal for fine sanding of pattern floors

Abrasives

Bona® Diamond Disc

The ultimate intercoat abrasion solution. Bona® Diamond Abrasives give you the assurance of a consistent scratch pattern across the entire floor leaving the best surface possible for optimal adhesion.

Key Benefits:

- Lasts up to 4,000-6,000 sq. ft. to accommodate all applications
- No visible swirl marks
- Consistent scratch pattern

RESILIENT FLOORS

If your existing floors are worn-down, but you're not ready to invest in replacing them, the new Bona Commercial System® Resilient Floor Solution can give you the quick, cost-effective, and simple solution you desire to upgrade your resilient floors. Our revolutionary solution starts with stripping old polish off your floors and upgrading with one of our six Bona Commercial System® Resilient Floor Base Colors. Color Chips allow for a beautiful, textured look and our highly durable clear coat eliminates the need for ever polishing or stripping the floor again! This process can be done in less than half the time it would take to replace the floor. This means facilities will be back in service faster, with less expense.

The Bona Commercial System Resilient Floor Solution is the easy, safe, and effective solution for maintaining or updating your resilient floors, such as VCT, LVT, VAT, and sheet vinyl.

- Bona Commercial System® Resilient Floor Stripper
- Bona Commercial System® Resilient Floor Base Color
- Bona Commercial System® Resilient Floor Clear Coat

RESILIENT FLOORS

Resilient Floor Stripper

Bona Commercial System® Resilient Floor Stripper

Bona Commercial System® Resilient Floor Stripper is an environmentally preferable very low-odor, pH neutral stripper perfect for use in places where a high pH stripper cannot be used. Contains no ammonia, caustic or other harsh materials. This product is also safe for the environment and contains no VOC levels that exceed established regulatory limits. Ideal for use on synthetic flooring such as rubber, linoleum or anywhere a high pH stripper will damage the substrate. Contact your Bona® Facility Solutions Sales Representative for correct ratio.

Key Benefits:

- Safe for linoleum floors
- pH Neutral
- Very low odor

Bona Commercial System® Resilient Floor Clear Coat

Bona Commercial System® Resilient Floor Clear Coat is a new and innovative product, specifically formulated for the treatment of resilient floors such as VCT, LVT and VAT, offering a long lasting and extremely durable coating. It is the final step in the transformation process to create a monolithic surface for heavy traffic in schools, industrial and commercial areas, restoring appearance and simplifying routine maintenance. Bona Commercial System Resilient Floor Clear Coat is a two-component, waterborne, clear, non-yellowing formula.

Key Benefits:

- Waterborne, urethane-based protection for resilient floors
- Strong resistance to common disinfectants and building chemicals
- Ultra-quick drying for minimal downtime
- Optimal application and leveling properties
- Meets ASTM D2047 standard for slip ratings
- Monolithic surface that allows disinfectants to work more effectively

Bona Commercial System® Transformations

HAVASU REGIONAL MEDICAL CENTER LAKE HAVASU CITY, AZ

SAVE ON COST, HOURS AND DOWNTIME

Arizona-based Havasu Regional Medical Center needed an upgrade for its old, worn, resilient floors. Important to the process, the facility sought a cost-effective solution to renew and improve the operating room floors with minimal downtime. This led the medical center to the Bona Commercial System® Resilient Floor Solution which upgraded the floors without the mess, expense, and time-intensive process of tearing out the floors. Instead, the Bona Commercial System Resilient Floor Solution offered a cost savings of up to 75%, a 4 hour renewal process, with only 18 total downtime hours. Compared to the standard new floor installation process which runs a minimum of three days and costs several hundred thousand dollars more, the benefit of utilizing the Bona system was clear.

Renewal Process Here!

CONCRETE FLOORS

If you are tired of polishing your concrete floors only to find them still looking dull and dirty, the Bona Commercial System® Concrete Floor Solution is the perfect system to help you upgrade the look of your worn concrete floors without the need to burnish or polish ever again. This new system is specially designed to provide optimal coverage over concrete floors. Each item is formulated with quick drying properties that leads to minimal downtime for renewal for concrete floors as well as establishing excellent chemical resistance and high durability of the floor. Coupled with color chips that can be applied in varying weight, you can add design and durability to the floor, extending the life and reducing the maintenance needs for years to come.

Bona Commercial System® **FLOOR EVALUATION**

At an on-site floor evaluation, your team will receive training on the simple renewal process that will provide long-lasting, highly durable, low maintenance resilient floors for years to come.

FLOOR RENEWAL

By using the Bona Commercial System® resilient floor solution, you will achieve significant savings for the facility versus tearing out and replacing old, worn floors. A color and clear coat system, specifically designed for VCT, LVT, linoleum, sheet vinyl and rubber floors, provides dramatic makeovers and color changes that can be done easily and quickly without shutting down facilities, minimizing downtime all with outstanding results.

CLEANING

Regular maintenance is the key to a long lasting, durable floor. The professional grade hard-surface floor cleaner is an effective, residue-free solution to thoroughly clean and preserve the finish. Bona Commercial System® Microfiber Dry Dusting Pad and Microfiber Wet Cleaning Pad along with our durable aluminum mop with a 24" wide flared edge base, make it simple, quick, and cost-effective to maintain resilient floors.

MAINTENANCE TOOLS

Multi-Surface Maintenance

Bona Commercial System® Multi-Surface Floor Care Kit

The Bona Commercial System® Multi-Surface Floor Care Kit has a 24", flared-edge mop base that is perfect for dry dusting or wet mopping. It features a telescoping pole with a locking system and is made of high quality brushed aluminum for superior durability. Microfiber dry dusting pad uses special short and long fibers to trap and remove dust, dirt and debris quickly and safely from floors. Microfiber wet cleaning pad is highly absorbent and great for daily wet cleaning. Both pads are washable and reusable.

Key Benefits:

- Adjustable mop pole with 4 locking height positions (Press & Lock)
Expanded 52"; Collapsed 32"
- Low-profile base for easy cleaning under furniture and fixtures
- Flared mop base for maximum dirt and debris removal
- Light and durable aluminum pole and base
- Wash and reuse microfiber pads up to 300 times
- Use with Bona Commercial System Hardwood and Hard-Surface Floor Cleaners

Kit Includes:

- 1 – 24" Aluminum Mop Base
- 1 – Telescoping Press & Lock Aluminum Mop Pole
- 1 – 24" Bona Microfiber Dry Dusting Pad
- 1 – 24" Bona Microfiber Wet Cleaning Pad
