

Bona DCS® Back Vac

High-powered, heavy duty backpack vacuum

The Bona DCS® Back Vac is a high-powered, heavy-duty commercial backpack vacuum that delivers 1294 watts of power with an airflow of 124 CFM and a 2.5-gallon tank. Its power, versatility, and rugged performance make it a unique component in the Bona DCS family of machines. Whether working on wide-open floors, tight kitchen areas with the buffer, or when just using vacuuming tools, you have the flexibility to maneuver without a trailing hose/cord assembly. Nothing compares to its speed, power, and efficiency.

- High-powered, heavy-duty
- High quality, 4-level filtration system
- Comfortable, streamlined, lightweight vacuum
- 2-year warranty

Bona DCS[®] Back Vac

High-powered, heavy duty backpack vacuum
