

# Bona Deep Clean

**Professional strength, waterborne cleaner specifically formulated to clean unwaxed, polyurethane finished floors.**

Bona Deep Clean is recommended for use in the Bona Deep Clean process and the Bona Recoat System. This concentrated, waterborne cleaner leaves no residue and will not dull the floor's finish.

- Non-foaming, commercial strength hardwood floor cleaner designed specifically for use with the Bona PowerScrubber® and most auto scrubbers
- Effectively utilize with the Bona Deep Clean and Bona Recoat Systems
- Leaves no dulling residue
- pH neutral and non-flammable
- GREENGUARD Gold Certified

# Bona Deep Clean

**Professional strength, waterborne cleaner specifically formulated to clean unwaxed, polyurethane finished floors.**

## PHYSICAL CHARACTERISTICS

**Ingredients** – Water, Alkoxylated alcohols, PPG-2

Methyl Ether, Butoxypropanol, Colorants,

Methylisothiazolinone, Benzisothiazolinone,

Methylchloroisothiazolinone

**Color** – Aquamarine

**pH** – 7.0 - 8.0

**Solids** - 1%

**Density** – 8.35 lbs./gallon (1.0 S.G.)

**VOC** - <1%

**Odor** – Slight solvent

**Stability** – 1 year shelf life

**Packaging** – 1 gallon plastic bottle

## APPLICATION CHARACTERISTICS

**Drying Time** – 15-20 minutes

**Application Tools** – Bona® PowerScrubber™, Autoscrubbers

## RECOMMENDED USE

Bona Deep Clean has two intended uses:

1. Deep Cleaning - All types of unwaxed, residential and commercial polyurethane-finished wood floors, and pre-finished, aluminum-oxide floors.
2. The Bona Recoat System® - For use on polyurethane site-finished and pre-finished wood floors that have been maintained with acrylic maintenance products. Refer to Bona Remove label for full Recoat System instructions.

## DIRECTIONS

BEFORE USING, READ ALL DIRECTIONS AND SAFETY DATA SHEET.

## RECOMMENDED APPLICATORS:

Bona PowerScrubber®, autoscrubbers.

## MIXING INSTRUCTIONS:

For use with the Bona PowerScrubber® and other autoscrubbers. DO NOT USE UNDILUTED. Dilute Bona Deep Clean at a 4:1 ratio (4 parts Water to 1 part concentrate). When used with the Bona PowerScrubber, add half a gallon of concentrate to the solution tank then add 2 gallons of water.

## DEEP CLEANING INSTRUCTIONS:

Refer to autoscrubber manufacturer's set-up and operational procedures. Do not allow excess solution to pool or puddle on the wood floor. Wipe up immediately. For most wood floors one or two cleaning passes with the Bona PowerScrubber will thoroughly clean the floor. For heavily soiled areas more passes may be needed to remove ground in dirt. Wet tack entire floor to remove any drips or wet spots autoscrubber may have missed.

## BONA RECOAT SYSTEM

### INSTRUCTIONS:

1. Using the Bona PowerScrubber, clean with the grain of the wood when possible, moving the Bona PowerScrubber up and back in the same path. Only dispense Bona Deep Clean agent on the forward pass. If Bona Remove® has dried or is not being removed completely it will be necessary to dispense Bona Deep Clean on the backward pass or make a second pass.
2. On subsequent passes overlap the previous pass by 20%. Continue process until all Bona Remove has been rinsed from the floor.

## CLEAN-UP

Application tools should be thoroughly cleaned with water.

# Bona Deep Clean

**Professional strength, waterborne cleaner specifically formulated to clean unwaxed, polyurethane finished floors.**

## **STORAGE:**

Nonflammable – Bona Deep Clean should be stored in a climate controlled environment. Keep from freezing. Do not store above 100° F.
