

Bona® 5" & 6" Diamond Abrasives

Ceramic and aluminum oxide grains provide maximum aggressiveness on difficult floors.

Bona® Diamond Abrasives are revolutionary in their ability to thoroughly prepare all polyurethane finished floors for recoating, including difficult to abrade ALOX and ceramic prefinished flooring. In addition to being the best smoothing system you can use prior to that all important final finish coat, the Bona Diamond Abrasives last 12x longer than screens and other inter-coat abrasive products. The unique construction and composition of Bona Diamond discs also ensure that they softly conform to the floor and provide unmatched thoroughness in abrasion and smoothing for a scratch - free floor when sanding raw wood.

- One set lasts, 4,000-6,000 sq. ft. on inter-coat abrasion
- No visible swirl marks
- Consistent scratch pattern
- Improves adhesion for recoating

Bona® 5" & 6" Diamond Abrasives

Ceramic and aluminum oxide grains provide maximum aggressiveness on difficult floors.

ORDERING INFORMATION

Item #	DESCRIPTION	Grit	No. Case	Lbs./Case
AASDIAMOND80	Bona 5" Diamond Abrasives	80 grit	48	1.25
AASDIAMOND12	Bona 5" Diamond Abrasives	120 grit	48	.50
AASDIAMOND18	Bona 5" Diamond Abrasives	180 grit	48	1.05
AASDIAMOND24	Bona 5" Diamond Abrasives	240 grit	48	.95
AASDIAMD6080	Bona 6" Diamond Abrasives	80 grit	32	1.0
AASDIAMD6120	Bona 6" Diamond Abrasives	120 grit	32	1.0
AASDIAMD6180	Bona 6" Diamond Abrasives	180 grit	32	.75
AASDIAMD6240	Bona 6" Diamond Abrasives	240 grit	32	.75
