

# Bona Power Drive®

All-directional and versatile disc sanding system

A powerful and flexible machine that can be equipped with many different drive plates for a wide variety of floor preparation.

The Bona Power Drive® is a truly all-directional and versatile disc sanding system that delivers powerful rotary sanding down to bare wood and significantly reduces your edging time. It delivers an amazingly fine and smooth sanding result and minimizes the risk of drum marks or chatter.

## Features and Benefits:

- Ability to utilize throughout the entire sanding process, or follow initial cut with the Bona Belt® machine
- Achieves the flattest floor with the best scratch pattern for stained or natural floors
- Saves labor time and cost by reducing edging time up to 50-80%
- New 270° LED light improves visibility
- New Multimeter displays voltage, Hz, and running hours
- New kickstand allows you to tilt the machine without contacting the floor with the sanding plates when changing accessories and abrasives, protecting the floor from unwanted scratches and prolonging the life of the drive plate
- Extra weights now included allowing you to customize cutting power and sanding aggressiveness
- Atomic DCS® compatible
