Density – 8.3 lbs./gallon (1.0 S.G.)

VOC – 3%

Odor – Slight solvent

Stability – 1 year shelf life

Packaging – 1 gallon plastic bottle

RECOMMENDED APPLICATORS

Bona Power Scrubber®

RECOMMENDED USE

Bona Recoat System® is for use on polyurethane site-finished and pre-finished wood floors only.

BEFORE USING, READ ALL DIRECTIONS AND MATERIAL SAFETY DATA SHEET.

DIRECTIONS

For use with the Bona PowerScrubber. DO NOT USE UNDILUTED. ONLY USE TO RINSE BONA REMOVER. IF USED AS A CLEANER BONA RINSE MAY DULL OR DAMAGE THE FLOOR.

Dilute Bona Rinse at a 4:1 ratio (4 parts water to 1-part concentrate). When used with the Bona PowerScrubber, add half a gallon of concentrate to the solution tank, then add 2 gallons of water.

Refer to Bona Power Scrubber set-up and operational procedures. Do not allow any excess solution to pool or puddle on the wood floor. Wipe up immediately.

1. Using the Bona Power Scrubber, clean with the grain of the wood when possible, moving the Bona Power Scrubber up and back in the same path. Only dispense

Bona Rinse agent on the forward pass. If Bona Remover has dried or is not being removed completely it will be necessary to dispense Bona Rinse on the backward pass or make a second pass.

2. On subsequent passes overlap the previous pass by 20%. Continue process until all Bona Remover has been rinsed from the floor.

STABILITY

One year shelf life in unopened container.

DISPOSAL

Empty Bona Power Scrubber recovery tank into a sewer line such as a toilet or utility sink. Do not empty contents into a vanity or kitchen sink, as the contents may plug the sink's trap.

STORAGE

Nonflammable – Bona Rinse should be stored in a climate controlled environment. Keep from freezing. Do not store above 100°F.

PRODUCT WARRANTY

The Bona Recoat System® warrants that a Bona Traffic HD® will adhere to both pre-finished and site finished wood floors when the complete system is followed. For complete warranty details and conditions visit bona.com or call Bona Technical Support.
