

Bona Hardwood Floor Polish

Air Purifying Formula, LG

The First Polish to Clean the Air!

Bona® Hardwood Floor Polish, air purifying formula, offers a protective layer that renews floors by filling in micro-scratches and scuffs, shielding against future wear and traffic, and adding a durable low gloss shine. Meanwhile, its patented formula continuously decomposes toxins, odors and contaminants eg. formaldehyde and converts them safely and naturally into water and carbon dioxide, turning your hardwood floors into one giant air filter. Use every 1-4 months, depending on foot traffic, to keep floors revitalized and to improve your indoor air quality. Love your floors and family with the brand recommended by professional flooring contractors since 1919.

- Air purifying formula provides a new floor shine while continuously working via light and air flow to improve the air quality in your home.
- Patented formula reduces toxins, odors and contaminants e.g. formaldehyde
- Natural safe and continuous way of air purification
- Fills in micro-scratches and revitalizes the shine and luster
- Specially formulated for lacquered wood flooring but with the flexibility of being possible to use on a variety of flooring types including varnished floors, laminate, linoleum, PVC and ceramic tiles
- Greenguard Gold certified – low chemical emission
- Low gloss finish
- Package may vary

Bona Hardwood Floor Polish

Air Purifying Formula, LG

The First Polish to Clean the Air!

PHYSICAL CHARACTERISTICS

Color: White liquid

PH: 8.0-9.0

Package: 32oz bottle

Gloss Level: Low Gloss

Ingredients:

Water	Solvent
Waterborne Urethane Polymer	Binder
Acrylic Copolymer(s)	Binder
Ethoxydiglycol	Solvent
Tributoxyethyl phosphate	Solvent
Ethoxylated Alcohols	Solvent
Modified Siloxanes	Surfactants
Benzisothiazolinone	Preservative
Methylisothiazolinone	Preservative
4-Morpholinecarboxaldehyde	Dispersant
Natural Diatomaceous Earth Amorphous Silica	
Iodopropynyl Butylcarbamate	

USAGE DIRECTIONS

- Perform a test in small inconspicuous area before usage.
- Vacuum, sweep or dust mop, then thoroughly clean with Bona Hardwood Floor Cleaner, then let dry.
- **With cap still tightly closed, shake bottle for 30 seconds.** Let bottle rest another 30 seconds before use. Squirt product in an "S" pattern onto the floor. Use a Bona mop and designated Bona Microfiber Cleaning Pad to smooth with the grains of the wood. Work in small sections keeping the pad wet.
- When finished, thoroughly wash cleaning pad with warm water. Allow the floor to dry at least 1 hour before walking on it.
- Toxins and volatile organic compounds in the air are trapped by light activated compounds in the polish. They are converted to water and carbon dioxide and released back into the air without harm.

FOR BEST RESULTS

Use a Bona Microfiber Cleaning Pad designated solely for polish application. Bona recommends using polish every 1 to 4 months depending on the traffic. This bottle covers 480 square feet (45 square meters). Coat the entire floor to ensure an even appearance. Allow 24 hours before heavy traffic or additional coats.

IMPORTANT NOTES

If unfamiliar with products previously used on the floor, Bona recommends using Bona Powerplus® Hardwood Floor Deep Cleaner and Bona Powerplus® Microfiber Deep Clean Pad to remove any cleaner residue.

Bona Hardwood Floor Polish cannot be coated with polyurethane or Bona Hardwood Floor Refresher. Not for use on unfinished wood or unsealed floors. Keep from freezing. Keep out of reach of children. Buyers assume all responsibility for proper use in accordance with label instructions. Results may vary according to the individual application techniques and prior condition of floor.

PATENT

- China: ZL2018800998885
- India: 518910
