Oil-based cleaner for oiled wood floors

Oil-based cleaner for oiled wood floors

Bona Oil Soap is a cleaner made of saponified plant oil, specifically designed for the regular cleaning and care of oiled wood floors. Bona Oil Soap cleans while nourishing the surface, leaving a thin protective film that can be buffed for more shine.

- Specifically for oiled floors
- Cleans and conditions
- Economic concentrate

### TECHNICAL DATA

<b>Product type / base:</b>	Saponified plant oil
<b>pH-value:</b>	Approx. 9-10 when diluted.
<b>Dilution:</b>	0.2 litres Bona Oil Soap to 10 litres of water (2 %)
<b>Shelf life:</b>	At least 2 years, from the date of production, in unopened original container
<b>Storage/Transport:</b>	The temperature must not fall below +5°C or exceed +30°C during storage and transport. Store in a cool place.
<b>Disposal:</b>	Waste and emptied containers should be handled in accordance with local regulations.
<b>Pack size:</b>	3 x 5 litres (44 boxes per pallet) 6 x 1 litres (90 boxes per pallet)

*Additional detailed information is noted in the appropriate Safety Data Sheet.*

### PREPARATION

Remove loose dust/grit etc. using a vacuum cleaner, scissor mop or other dry-cleaning method. Shake the

container well and dissolve 0.2 litre Bona Oil Soap in 10 litres of water.

### DIRECTIONS FOR USE

Clean along the grain using a well wrung-out cloth, mop or similar. On heavily soiled floors a buffing machine with a nylon pad can be run in the wet soap solution. Use a red pad on pigmented floors and a green pad on floors with regular, clear oil. Pick up the dissolved dirt with a mop directly.

When the surface has dried it can be dry buffed for more shine. Best results are obtained using a buffing machine

(300 rpm) equipped with a Bona Wool Pad.

Wood flooring should never be left damp, not to mention wet. Over a prolonged period it will absorb water becoming warped and/or discoloured. Always clean using as dry a method as possible and never allow water or cleaning solution to pool on the floor. Take special care not to allow liquid to seep freely into open gaps.
